## PROFESSIONAL SUMMARY

Senior Business Analyst with 6+ years eliciting, documenting, and communicating complex business and technical requirements across global Fintech, InsurTech, and enterprise SaaS organisations. Proven track record bridging cross-functional stakeholder teams — from C-suite to offshore development — translating ambiguous business needs into structured BRDs, current/future-state process diagrams, and implementation-ready specifications. Delivered measurable outcomes: 40% faster onboarding, 60% productivity gains, and a \$10M programme delivered 20% ahead of schedule. Proficient in Jira, Confluence, and Agile/Scrum; PSPO I certified; MBA from JBIMS (Top-10 India).

## PROFESSIONAL EXPERIENCE

### Senior Product Owner / Business Analyst — CoreSuite Insurance Platform

Sapiens International | Bengaluru, India | Oct 2024 – Present

- Elicited and documented requirements for **50+ features across 6 releases** for an enterprise insurance platform serving 500K+ customers — translating stakeholder inputs into structured user stories, process diagrams, and acceptance criteria in Jira and Confluence.
- Designed a 4-factor prioritisation framework (client breadth, strategic value, technical risk, revenue linkage) to sequence a 50+ item backlog, creating unambiguous development roadmaps for engineering teams across 3 global offices.
- Led current-state and future-state documentation for claims, policy, and billing workflows, reducing requirements ambiguity and achieving a **95% pre-production quality rate** with zero P1 client-facing defects.
- Communicated requirements to Developers and QA through detailed functional specs and facilitated UAT sessions — ensuring solution delivery matched specifications across distributed teams.
- Decreased transaction abandonment **25%** and grew platform adoption **15%** by identifying process friction points through data analysis and converting findings into actionable developer specs.

### Product Owner / Business Analyst — Digital Onboarding Platform

Signzy Technologies | Bengaluru, India | Jan 2024 – Sep 2024

- Owned end-to-end requirements lifecycle for a B2B digital banking platform (Yes Bank, IndusInd Bank) — reduced customer onboarding from 3 days to under 2 hours (**40% reduction**) by redesigning process flows and eliminating manual fallback loops in BRDs.
- Conducted 3-month transaction log analysis to pinpoint root failure mode (silent drop-offs at document upload); documented findings and produced targeted developer specifications that resolved the issue before AI model changes were needed.
- Authored RBI-compliant KYC workflow specifications balancing regulatory constraints with UX requirements — improving KYC accuracy **35%** and securing 3 contract renewals.
- Built product analytics dashboards (conversion funnels, KYC pass rates) informing **3 data-driven product pivots** and a 20% improvement in client satisfaction scores.

### Product Consultant / Senior Business Analyst — Enterprise Digital Transformation

Deloitte Digital | Mumbai, India | Nov 2021 – Jan 2024

- Led requirements elicitation and documentation for a **\$10M GenAI transformation programme** for Health Care Service Corporation (US) — mapped 180+ agent tasks, produced current/future-state process diagrams, and sequenced 10+ GenAI features; delivered **20% ahead of schedule**.
- Drove **60% productivity gain** by translating GenAI use cases into detailed functional specifications for TruServe (Salesforce contact centre), enabling engineering to implement automation against clear acceptance criteria.
- Facilitated multi-stakeholder requirements workshops for **Apple Inc.** and HCSC; produced BRDs and process maps that guided distributed delivery teams across US and India, maintaining complete confidentiality on sensitive client data.
- Trained internal clients and support teams on 10+ newly delivered automation solutions, ensuring effective BAU transition and reducing post-go-live support queries by 30%.

### Business Analyst — E-commerce Products

Iksula Services | Mumbai, India | Jul 2019 – Oct 2021

- Delivered BA and product ownership for 6 e-commerce products across ITC, Eureka Forbes, and ELC Toys — from discovery, wireframes, and process documentation through go-to-market execution.
- Ran structured 8-week A/B test programmes validating requirements hypotheses; achieved **+16pp conversion improvement** across 3 client accounts through evidence-based specification refinement.
- Received **Quarterly Excellence Award** — first awarded for “product ownership mindset” in a BA role — recognising proactive stakeholder communication and delivery against ambiguous requirements.

## CORE COMPETENCIES & TOOLS

**Requirements & Documentation:** Business Requirements Documents (BRD) · Current/Future-State Process Mapping · Stakeholder Elicitation · GAP Analysis · Functional Specifications · UAT Planning

**Tools & Platforms:** Jira · Confluence · SQL · Figma · Postman · Salesforce · Mixpanel · Google Analytics · Tableau

**Delivery & Methodology:** Agile / Scrum · Sprint Planning · Backlog Management · Cross-functional Collaboration · Process Automation · Change Management

**Domain Knowledge:** Fintech / KYC · Digital Banking · InsurTech · Enterprise SaaS · RBI Compliance · API Design · Investment / Financial Services

**Communication & Leadership:** Global Stakeholder Management · C-suite Presentations · Technical Writing · Training & Enablement · Solution Transition to BAU

## SIDE PROJECT

---

### JobSignals — Labour Market Intelligence Platform | [jobsignals-e9w5.onrender.com](https://jobsignals-e9w5.onrender.com)

Self-initiated data product: authored a 17-section PRD transforming fragmented job posting data into structured hiring signals (skills demand, hiring velocity, salary bands) served via REST/GraphQL API. Demonstrates full BA lifecycle — problem framing, stakeholder persona mapping, process documentation, API specification, and go-to-market strategy.

## EDUCATION

---

### Master of Management Studies (MBA) — Marketing & Strategy

Jamnalal Bajaj Institute of Management Studies (JBIMS), Mumbai | 2023 – 2025 | Top-10 MBA in India

Capstone: JPMC Digital Banking Strategic Analysis — SWOT, QSPM matrices, \$1.5B 3-year investment roadmap

### Bachelor of Engineering — Information Technology

University of Mumbai | 2015 – 2019

## CERTIFICATIONS

---

- **Professional Scrum Product Owner I (PSPO I)** — Scrum.org — Active
- **AWS Certified Cloud Practitioner** — Amazon Web Services — Active
- **McKinsey Forward Programme** — McKinsey & Company — Completed
